

# Compliance Statement

## for COPPA, FERPA, CalOPPA & Ed-Law 2-d

Vurbo.ai is committed to safeguarding user data privacy and security, adhering to relevant federal and state regulations, including the Children's Online Privacy Protection Act (COPPA), the Family Educational Rights and Privacy Act (FERPA), the California Online Privacy Protection Act (CalOPPA), and New York's Education Law 2-d.

### Data Collection and Use:

- **We do not collect personal information.** We require users to log in using an existing account, such as a Google or Apple account, to verify your identity and ensure secure access. We only use this information for authentication and do not collect any other personal information from these accounts. We do not collect any information from children under the age of 13. If we discover that a child under 13 has created an account without verifiable parental consent, we will take steps to resolve the issue, including complying with requests from school officials if applicable.
- **For users under 13:** While Vurbo.ai is not specifically designed for young children, we understand that schools and educational institutions may find our translation features beneficial for students under 13. In these cases, we rely on schools to obtain verifiable parental consent, manage student access, and ensure compliance with COPPA and FERPA. We are committed to supporting schools in this process by providing resources and guidance on relevant regulations and best practices.
- **Data Minimization:** Your privacy is important to us. To ensure secure access, we require you to log in using an existing account (e.g., Google, Apple). This allows us to verify your identity without collecting unnecessary information. We only receive your email address or user ID for authentication purposes. We will not collect or store your password or any other sensitive data from these accounts.
- **Data Security:** We employ industry-standard security measures to protect user data, including encryption, access controls, and regular security audits. For more information, please visit <https://vurbo.ai/privacy>.
- **Data Retention:** We do not retain any audio recordings, transcripts, or translations generated by our service. School officials can decide whether to retain data generated by the service for users under 13, but this data is not stored or retained by Vurbo.ai.

## **Our Role in Education:**

Vurbo.ai can be a valuable tool in educational settings to facilitate language learning and communication. When used by schools with students of any age, we act as a data processor, processing data according to the school's instructions and under the authority of their privacy policies and practices.

## **Transparency and Control:**

- **Privacy Policy:** Our comprehensive privacy policy is publicly available on our website. It outlines our data processing, usage, and disclosure practices, as well as our data encryption technology. Please visit <https://vurbo.ai/privacy> for more information.
- **Parental Rights:** Parents have the right to access, review, correct, or delete their child's personal information. If Vurbo.ai has collected the data directly, parents can contact us to exercise these rights under COPPA. If the child's account is managed by a school or educational institution, parents should contact the school to request access, corrections, or deletions of their child's data in compliance with FERPA.
- 
- **Data Breach Notification:** In the event of a data breach, we will promptly notify affected users, schools, and individuals in accordance with applicable laws and regulations.

## **Compliance with Specific Regulations:**

- **COPPA:** We will collaborate with school officials and adhere to requirements to prevent children under 13 from creating independent accounts. We rely on schools to obtain verifiable parental consent and manage access for younger students using our platform under their supervision.
- **FERPA:** We serve as a data processor under the guidance of schools, ensuring data security and having data processing agreements in place. All data shared on the platform remains controlled by the school and is stored on the user's device. It is the responsibility of school officials to ensure compliance with FERPA and handle any data access or deletion requests.
- **CalOPPA:** Vurbo.ai offers a clear privacy policy and does not track users across third-party websites. Any updates to our data practices are published on our

website. Our privacy policy complies with CalOPPA, including disclosures regarding data collection, usage, and user rights.

- **Ed-Law 2-d:** We comply with New York's Education Law 2-d to protect student data privacy. This includes implementing strong data security measures, following data breach notification rules, and limiting third-party access to student information.

### **Continuous Improvement:**

We are committed to continuous improvement in our privacy practices. We regularly review and update our policies and procedures to ensure we provide the highest level of protection for user data.
